Explanations :

1. Thesis defense applications should be reviewed by the appropriate group of School and forwarded to the Office of Academic Affairs with the thesis, abstract, format of the defense, time, location and list of internal and external committee members attached. Once reviewed for errors by the Office, the form is sent to the School Dean for approval and then processed.
2. The defense committee consists of 3 members with the advisor as an ex officio member. One third of the members must be external. The committee members are nominated by the advisor. They are invited after approval by the dean of the school.
3. Members of the defense committee may not be interested parties or be related to the student currently or formerly by blood or marriage including being a spouse, former spouse, a blood relative within the third degree of kinship, or a collateral relative within the second degree of kinship. Nominees who are related to the students in any of the ways stated above should recuse themselves. If necessary, the nomination process should be carried out a second time.
4. For other pertinent information, see the Kainan University Master's Thesis Defense Regulations.
